THE QU'APPELLE Vidette endorses the remarks of the BULLETIN on the school system of the Northwest. The Vidette says: "We have maintained, and do so still, that the duty of the state is accomplished, as regards the education of the masses, when the child is in a position to, or has passed, the high school examinations, with at least 90 per cent of the possible marks, and our school system should be maintained on this principle."

THIS bring bridge contracts on Northwest government account were let on Monday last by A. PRINCE, builder, L. A., for St. Albert, by auction to the low bidder. Bridge across the Sturgeon river at the road allowance about 300 yards upstream from the lower crossing of the Victoria, 1st and 2nd, C. & C. road, at \$320. Bridge across the Sturgeon river on the road allowance at Alphonse Lamoureux's place to Thomas Shea, at \$348. New bridge across coulee at Jas. Reed's place Fort Saskatchewan settlement, north side, to B. Pilote at \$80. There was a fair attendance at all the auctions and bidding was spirited.

A PERIODICAL has been circulated during the past week on behalf of the sisters of charity, asking from the H. B. Company the sum of \$1000 immediately south of the block at St. Joachim's mission, at half the present price for the purpose of establishing a general hospital thereon. The sisters ask for the property at a price of \$1,050. The petition has been very generally signed, as everyone recognizes the need of a hospital, owing to the number of new arrivals in the district, and wish to see the reverend sisters encouraged in their enterprise.

THE WETASKIWIN land office will be open in a few days. T. R. Ferguson, lately agent at St. Paul, will be next in command. The line between Wetaskiwin and the divide running line between the Edmonton agency and Wetaskiwin is about range 21 westward. East of range 21 the line is that between township 30 and 31. The line crosses the railway just north of Leduc station and places the south end of Beaver lake in Wetaskiwin district. The reason for making the jog is that the line is about 40 miles north of range 20 and 21 and it is almost entirely apparent enough to be out of the point of view of the general interest, but no doubt this will be rectified. The establishment of this office will be a great assistance to the settlement of Northern Alberta.

S. OLSON, A. Wiedman and Norman Alvillo arrived on Monday's train from Skanokka, Washington, to look up land in the Edmonton district. Mr. Olson visited Edmonton last summer and selected land in the Beaver hills north east of Fort Saskatchewan.

THE AUCTION sale of lands on the Indian reserve South Edmonton to take place on Tuesday, April 18th, should have a large attendance. The lands to be offered at this sale include a number of very choice farm locations close to the railroad and close to the town with abundance of wood, water and hay right to hand. The soil is deep and black and the growth of vegetation luxuriant to the last degree. Any parties who intend to invest or farm in the Edmonton district should make it a point to attend this sale. At the same time the buyer should be on land that he has not seen or had reliable assurances regarding its nature or situation. The area offered for sale embraces more than a township in extent and as its eastern portion lies within the Beaver hills, not every quarter section is arable land. While every quarter section is good for cultivation or pasture, every quarter section is not good for any purpose that the purchaser may require it for, and in the purpose for which some parts can be put are of more value than those for which other parts can be used, a man must see for himself in order that he may be sure of getting the worth of his money. It is to be hoped that the department will be able to have the Indians sell their lands at a price that is fair and reasonable. The fact that this area of land through which the railway passes immediately before it reaches the Edmonton terminus, has been entirely uninhabited and unimproved ever since the road was completed has tended to create a bad impression in the minds of the railroads, who did not know the reason. With the sale of the land and cultivation and improvement the reverse impression will be created and the district and country thereby greatly the gainer.

TAX EXEMPTION.

The application of the Edmonton Electric Lighting and Power Company for exemption from municipal taxation for the current year and refund of taxes paid during the past year is certainly not lacking in the element which chiefly assures success. While the existence of a municipality is—or is supposed to be—a benefit, it entails a burden for its support, which burden is—or is supposed to be—borne in equal proportion by all the property receiving the supposed benefit, according to its value. It is perfectly plain that if any portion of the property within the municipality is relieved from its proper share of the burden of taxation that share is added to the portion of the burden properly borne by the rest of the property. So that when one ratepayer of the town, or a number of ratepayers under any name whatever, ask for exemption from taxation for his or their property they simply ask that their fellow rate payers shall pay their taxes for them. An exemption of one part of the property in a municipality is a fine upon the rest. There are occasions when it becomes a debatable question whether or not this extra burden should be assumed by the many for the sake of the few. Every one is familiar with these occasions. They arise when a productive industry—one whose operations add to the material wealth of the place in which it is located by reason of the number of hands employed or the amount of trade which it will bring (and which is not compelled by force of circumstances to choose that particular place as the field of its operations)—is looking for a location. It is then a question for the ratepayers to consider whether the amount of benefit to be derived from the location of that industry there is sufficient to warrant them in assuming the extra burden entailed by its exemption from taxation. In the case of the electric light company, it neither employs labor to any great extent nor furnishes material to induce trade; it lives off the town alone and could have no existence separate from the town. There are no grounds of fairplay to the ordinary ratepayer that would justify the exemption of the property of this company from its full share of ordinary taxation. Every argument that can be advanced in favor of exempting the electric light company can be advanced with equal or greater force on behalf of every other business or industry in town.

The Dominion Illustrated Monthly for March is to hand. The illustrations in this number are particularly good, and are in large number. Among the more interesting articles are "Japanese Actors and Dancing Girls," profusely illustrated with types of Japanese stage-characters. The popular rage about hockey calls attention to an illustration of a game of "hockey" skinned out of a number of leather hocky teams followed by "A Hockey Song." "The Queen's Winter Home" is an entertaining article, with many fine engravings accompanying, of scenes in and about Osborne House and vicinity. Other articles of fact and fiction go to make up an interesting number.

Qu'Appelle Progress: "Mr. Reid, of the auditor general's office, Ottawa, has been in Regina for some time examining the accounts of the Northwest government, and, as a result of certain irregularities discovered, two officials, Mr. Bowring and Clerk—have been suspended, and may probably be dismissed. We learn that this investigation is made at the instigation of the executive, who now have the supervision and control of all officials, and we may confidently look for such a straightening up of affairs as will conclusively prove the wisdom of this responsibility falling on those who are accountable to the people for all monies coming into the treasury."

Regina Standard, March 31: On Tuesday night the east-bound express collided with a freight train near Welsh, a station on the Canadian Pacific line between Medicine Hat. Both engines were demolished and the mail car was smashed to splinters. One fireman was injured. That the express messenger and mail clerk escaped instant death, was little short of miraculous. The express train proceeded east after a few hours delay, but carried neither mail nor express matter.

Supt. Whyte of the C. P. R. on his return from the scene of the recent snow blockades near Swift Current, told the Free Press that the cattle were all right in the district south of Calgary and west of the foot hills, but south of Medicine Hat, in the Cypress hills and along the line west of Macleod, bad reports were not so favorable.

Free Press, March 31: "The Dominion Lands commissioners advised that seventeen settlers from Colfax county, Nebraska left for the Canadian Northwest yesterday in charge of James Gadsden, Dominion immigration agent. Sixteen cars containing their stock, etc., etc., left on Tuesday last."

Dalton McCarthy's proposed motion to give the Northwest assembly power to deal with the language and school questions, was knocked out by the government failing to place before parliament the bill to amend the Northwest act—it is said for fear of the debate on this motion.

The great and only Edward Blake recently told a meeting of home rulers in Dublin that the greatest boon that country could receive consistently with the acquirement of its legal independence and executive rights would be the appointment of another Father Matthew.

Medicine Hat police barracks, which were located on the opposite side of the Saskatchewan from the town, are to be removed across the river to the town. The contract for the removal has been let.

One hundred and fifty cases and fifty deaths from diphtheria were reported from the district of Pola-tia, Russia. The disease has also appeared at Zalissce, an adjacent town in Galicia, Austria.

An act was passed at the session of parliament which closed on Saturday to exempt 100 acres of land under execution instead of 50 acres as formerly.

The running time of the C. P. R. will be shortened in order to give a daylight passenger service through the Rockies and Selkirks.

RESOLUTION OF APPRECIATION.

Copy of resolution passed by the Board of Trustees of the Edmonton Protestant Public School District on the resignation of C. E. STRANG as secretary treasurer of the board: "Moved by J. A. McDonald and seconded by Jas. McDonald and Resolved, that this board place on record its appreciation of Mr. Strang's long and faithful services as secretary treasurer of school district No. 7 and its great regret that through press of work he has had to resign." Carried.

A COMBINE.

The following notice has been posted in the butcher shop in town: "We will charge the high price of stock we the undersigned butchers of Edmonton agree to charge the following prices for meats on and from April 1st to 18th, until such time as we may be able to reduce the same: Beef—roasts: loin and rib 15c; chuck 12c, rump 10c; steak: loin, round and rib 12c; shoulder 12c, chuck 12c, hock 8c. Pork—roast, chop and sausages 15c. Mutton: leg 20c, chop 20c, shoulder 15c. (signed) Howey Bros., H. Vance & Co., C. Gallagher, N. Leclerc. This is an advance from 12c for the best roasts and steaks and from 10c to 15c for pork and from 18c to 20c for mutton."

WETASKIWIN.

The sale referred to in my last letter from this place was completed a few days since, where postmaster Miquelon has disposed of his business property and goods retaining the premises and interest in the lumber business, the attention to which makes Mr. Miquelon one of the very busiest men in town. The purchasers of his store are Mowers, Macdonell & Ramsey, who have kept a trading post a few miles south of here for a number of years, and who are in the ranching business.

Robert Bear, our newly married store keeper has got himself a big new sleigh built with a single bended around it, which makes him look like a wild Indian. Wait! for a slight examination of that countenance will show that it is illuminated from within by the light of an unsullied conscience. He, too, quite often says "yesterday."

John West has seized the future by the tail as to speak by getting in a car load of builders' hardware and a whole train load of lumber and farming implements.

Gould & Greenwood are adding new horses and buggies to their livery stock that are in keeping with their fine large modern barn—which certainly is a credit to its owners as well as the town; which is exactly the opposite of what can be said of the—the what is it—that has been put up here as an immigrant shed.

The Victoria Hotel's office is about completed, and though very small is quite airy looking, but nothing to what was expected from the fact that its builders were sent here from far off as men of much cunning in the art of wood working.

Albert Norman the genial and popular proprietor of the Wetaskiwin Hotel, is about selling to an Edmonton party his hotel property. If Wetaskiwin is not a looser by this change Mr. Norman's successor must be an exceptionally good man.

The weather is warm and delightful, the hairy beards have disappeared from our key holes and our men have received a fresh supply of tobacco, pipes and papering they got from the hard snow. The health of our town folks is remarkably good, everybody I believe is well with the exception of Mr. Henderson who some time ago got a severe fall, from the effects of which he has not entirely recovered.

A man here last week bought a copy of the BULLETIN and seeing no communication from Wetaskiwin wanted his money refunded.
